Customer service for thermal deburring machines TEM P80 and P350

Dear Sir/Madam,

We have been happy to provide you for a long time with our maintenance, repair, spare parts and training services. In order to make sure you can access these services in the long term, to our usual quality and performance, we have decided to transfer the entire customer service to Extrude Hone with effect from April 1, 2018.

Extrude Hone
Bürgermeister Merk Str. 1
D-87752 Holzgunz

Extrude Hone has been licensed to build and sell our TEM P80 and P350 machines since mid-2003 and also manufactures other types of deburring machines. Extrude Hone offers you all the services you have received from us up until now. Please contact :

We would like to thank you for the decades of working together.

If you agree to personal contact from Extrude Hone Personal,
please confirm this in our email using the field shown below in Outlook.

You can also, of course, respond to our email.

Sincerely,

Bosch Rexroth AG
